New Online Scoring –

We are introducing a new online scoring system this year. It will reward team attendance, provide immediate results for you and your team, and should prove to be a lot of fun to follow! A bonus...we will now have the ability to project the results on a TV in the club house! Go to www.golfscoring.net/deerrun to see the format for the website.

Phil, Vijay, and Tiger Confirmed!

Phil Mickelson, Vijay Singh and Tiger Woods have confirmed that they have absolutely no interest in our NEW Tuesday Men's League format at Deer Run!

League Website... www.golfscoring.net/deerrun

We are excited to announce we'll be using a new scoring system specifically designed for our Tuesday Men's League. Thanks to this unique web based program players can track their individual and team performance and we now have the ability to **display live scoring on the club TV!**

The idea behind the program is simple... the more you play - the better it is for you and your team. Our goal is to have at least 150 participants this year - 10 teams with 15 players on each team. Teams will do battle in a season-long round robin with the winners of each weekly match earning 10 points, 5 points per team if there is a tie and 0 for teams that lose. **An important part of the program is participation** – teams receive 1 point for each participant regardless of their performance as long as they reach the minimum number of players required to post a team score. Team scores will be determined by the total of the 2 lowest gross scores and the 4 lowest net scores per team. Those that don't count toward the team total can almost assuredly count on being singled out, ridiculed and suitably labeled a Useless Bastard or similar on both the TV and the league website. They will however earn a valuable participation point and, of course, they can always step it up and count the following week.

One of the hi-lights of the program is the actual real-time scoring. As the scores are entered throughout the day the standings, individual results and Team vs. Team information is updated in real-time on the Internet. Guys who can't play that week or those of us who are stranded at the office until later in the day can log onto the new league website (www.golfscoring.net/deerrun) to see how their team is doing. Another bonus is the program actually maintains a separate league handicap so you can stop worrying; each team will be balanced with an equal number of liars, lowlifes, sandbaggers and cheats... handicaps are automatically updated and applied based solely on your league scores. That, my friends, is pretty darn efficient.

To make this work we need about 10 enthusiastic, if not competent, captains so if you would like to help us out by heading up a team this year please speak with Larry Smyth as soon as possible (larry.smyth52@gmail.com). Prospective Captains can rest easy - the skills required to effectively head up a team are few - we need you to play on a regular basis and, because success in this format relies heavily on participation, you have to be able to rally the troops. The more guys that play... the better it is for the team. We have just started to build the website, but you can get an idea of how it will work by going to...
